FOR IMMEDIATE RELEASE:

### **2015 VeriFacts ACE Awards Exceptional Repair Center Finalists Announced for “The ACE Award”**

**Newport Beach, California - October 27, 2015 - VeriFacts Automotive, LLC** announced today the finalists for the VeriFacts Automotive ACE Awards (Achievement in Collision Repair Excellence). Each year VeriFacts Automotive recognizes a collision repair center that has participated in the *Verified Quality (VQ) Program* for a minimum of six months, and has consistently delivered superior output repair quality. VQ facilities have opened their shops to independent verification experts so that the industry and consumers can know that these facilities produce high-quality output.

The finalists for the ACE Award for exceptional collision repair center have all displayed an industry leading commitment to safe, correct, and smart repairs. This year, the award will be presented to two shop locations: one for their verified high-quality Advanced Materials and Aluminum repairs, and one for their verified high-quality Traditional Material repairs.

The ACE Award for exceptional collision repair centers recognizes the remarkable collision repair center that consistently produces and delivers verified repair quality. As one of the original founders of VeriFacts Automotive, Mr. Farzam Afshar explains “These shops are have truly embraced a culture of quality, and each one should be recognized as advancing the craft of collision repair.”

**About: VeriFacts Automotive** was founded to address the difference between a repairer's potential to produce repair quality through the documentation of production inputs such as repair equipment and current levels of technician training; versus verification of the output repair quality actually being produced. The VeriFacts Verified Quality (VQ) Program conducts independent third party verification, onsite repair procedure observations, technician skills coaching and provides comprehensive reporting on all findings. Specific and whole business performances are revealed in these comprehensive reports; allowing for real continuous improvement through correlating recommendations for coaching, education and clinics. VeriFacts Automotive uses proprietary assessment technology, automotive technical expertise and professional integrity to provide a wide array of valuable services to the collision repair, insurance and auto manufacturing communities. For further information, please call VeriFacts at (949) 272-3838 or e-mail [info@verifactsauto.com](mailto:info@verifactsauto.com).
